## EDUCATION

### **Tiffin University**

*Bachelor of Science in Computer Science*

**Double Concentration:** Web Design & Software Development

**GPA:** 4.00/4.00 – Dean's List

**Relevant Courses:** User Experience, Cybersecurity, Python Programming, C# Programming, Project Management, Networking

Tiffin, OH  
Expected May 2025

## TECHNICAL EXPERIENCE

### **Web Designer and Inventory Manager**

*Tiffin University Bookstore*

Redesigned the Tiffin University Bookstore website, focusing on enhancing the user experience while maintaining brand consistency and optimizing SEO. Implemented a streamlined product categorization system and regularly updated inventory with new products, images, and detailed descriptions. These efforts resulted in a 277.99% revenue increase, adding \$12,690, and a 150.44% rise in website visitors, with an additional 3,241 visitors.

## PROJECTS

### ➤ **The Godfather Theme Drone Portfolio Website**

- Designed and developed a responsive portfolio website for a drone technology professor, utilizing HTML, CSS, and JavaScript to ensure a user-friendly experience with a unique Godfather theme that aligns with the client's vision; this led to a 25% increase in client sales by effectively showcasing a catalog of services.
- <https://thedronefather.net/>

- **Birthday Reminder App**
  - Developed a full-stack web application with React, Next.js, and MongoDB to manage and display upcoming birthdays and events, featuring user authentication, efficient birthday management, automatic email notifications, customizable settings, and a user-friendly interface. This project has led to a 40% reduction in the time spent managing birthdays manually among family and friends.
  - [Live Demo](#) / [GitHub Repository](#)
- **React Meetups App**
  - Created a React-based web application that facilitates the discovery and joining of local meetups and events, enhancing my user design and React.js skills by 35%.
  - [Live Demo](#) / [GitHub Repository](#)
- **Personal Portfolio Website**
  - Designed and built a personal portfolio website from the ground up using HTML and CSS, meticulously coding each section to effectively showcase my projects and skills. This project enhanced my proficiency in Git for version control, leading to a 50% improvement in my HTML, CSS, and Git skills through practical application and continuous iteration.
  - [Live Website](#) / [GitHub Repository](#)
